

AZUAR

FULLSTACK DEVELOPER

Tanjung Pinang, Indonesia | Phone: 081370978504 | Email: azuar.dev@gmail.com

SUMMARY

I am a highly motivated and detail-oriented **Full-stack Developer** with over **3+ years of experience** in designing, developing, and optimizing **scalable, high-performance web applications**. My expertise spans across **Angular, React, NextJs, NestJs, Python and cloud technologies**, allowing me to deliver robust front-end and back-end solutions. I have a strong focus on **code efficiency, UI/UX optimization, and performance tuning**, successfully reducing page load times by **30%** and improving **user engagement**.

I specialize in **API integration**, working with **RESTful and GraphQL APIs** to ensure seamless data flow between frontend and backend systems. Additionally, I have experience with **cloud services like Firebase** for real-time database solutions, authentication, and hosting. My expertise also extends to **NoSQL databases such as MongoDB**, allowing me to build flexible and scalable data architectures. Passionate about problem-solving, I thrive in **Agile environments**, collaborating closely with cross-functional teams to create seamless digital experiences. I am always eager to explore **new technologies**, enhance workflows, and drive innovation through continuous learning and improvement.

EXPERIENCE

Software Developer | PT JAVAN CIPTA SOLUSI (Remote)

January 2023 – April 2024

- Developed and maintained web applications using React.js, Angular, Node.js, Python, Docker, Laravel and Java Spring boot.
- Optimized UI performance, reducing load times by 30% and improving cross-device responsiveness.
- Led frontend enhancements for insurance-related applications, ensuring a seamless user experience.
- Implemented GitLab CI/CD pipelines, improving deployment efficiency and automation.

- Increased unit test coverage by 25% using Jest (JavaScript) and Karma (Angular)
- Collaborated in Agile sprints, refining and shipping features efficiently.

Software Developer | PT INFORSYS INDONESIA

March 2021 - December 2022

- Developed and maintained ERP software using Angular & .NET (C#), improving frontend performance by 40%.
 - Designed new Angular features, ensuring seamless backend integration with GitLab version control.
 - Developed mobile applications for Android & iOS using Ionic Framework, enabling cross-platform compatibility.
 - Proposed and implemented UX/UI improvements, reducing user complaints by 20%.
 - Contributed to Agile workflows, participating in daily stand-ups, sprint planning, and retrospectives.
-

EDUCATION

Universitas Maritim Raja Ali Haji - UMRAH

Bachelor of Informatics Engineering (GPA: 3.29)

September 2018 – January 2025

TECHNICAL SKILLS

- **Frontend:** Angular 2+, ReactJS, Next.js, HTML, CSS (SCSS, SASS), Tailwind, Bootstrap, Material UI, Ng-Zorro, Ionic.
 - **Backend:** Node.js, Express.js, .NET (C#), Python 3.
 - **Database:** MySQL, SQL Server, Firebase, MongoDB.
 - **DevOps & Tools:** Docker, Git (GitHub, GitLab), GitLab CI/CD, Jenkins, SonarQube, Jira.
 - **Testing:** Jest, Karma.
 - **UI/UX:** Figma.
-

PROJECTS & LINK

- Facial Recognition Attendance System: Built using Python, OpenCV, Firebase with 95% accuracy for educational institutions.
 - Freelance Projects : Designed and developed custom web applications for small businesses using **Angular, React Vite, NextJs, NestJs, MongoDB,** and **Firebase,** improving operational efficiency and enabling real-time data synchronization.
